Lessons occur once a week on a rotating basis. Students can submit materials from private teachers in lieu of school lessons. Students are responsible for whatever work they miss in their main classes. During lessons students will have the chance to work on solo material, sight-reading, vocal pedagogy, basic theory, rhythm exercises and expand on concepts covered in class and complete projects.

Lessons

50% class participation/attendance

- A student's accumulated absences may result in a lower grade

25% lesson attendance

- Lessons are mandatory and must be attended throughout the year.

25% concert attendance.

- In the quarters without a concert, the extra 25% will happen through a performance assessment in lessons.
